

CSSE333: Status Report
Team Number: S4G1 - Rapture
Week: #6

Planned User Scenario:

Get started on the UI, make an HTML skeleton, continue working on CSS, get an implementation plan setup for linking the database with the UI.

Team Member	Task	Hours
JL Koenig	Fixed tables to have ID's auto populate. Began mocking a web interface for our system. Created stored procedures for adding disasters, assets, people, and locations.	4.5
Henry Krzyzewski	Wrote for our team on the privacy analysis document and wrote the InsertHasItem and InsertHasSkill stored procedures	3
Dominic Oaldon	I wrote for our team parts of the privacy analysis document as well as the stored procedures add_usefulassets, add_items, and add_skills	3

Signatures:

JL Koenig: 

Henry Krzyzewski: 

Dominic Oaldon: 

Next Week's Planned User Scenario:

Having a working website and starting to work on connecting it to the database. Having drafts of all our stored procedures written.
