

CSSE333: Status Report  
Team Number: S4G1 - Rapture  
Week: #6

**Planned User Scenario:**

Having a working website and starting to work on connecting it to the database. Having drafts of all our stored procedures written.

Team Member	Task	Hours
JL Koenig	Created basic web interface and outlined the stylistic direction, helped with the structure for database connectivity.	5
Henry Krzyzewski	Connected to the database. Worked on API for Node.js but eventually switched to writing PHP to get it communicating between front end and backend.	8
Dominic Oaldon	Worked on connecting to the database and getting an API to work on Node.js	5

**Signatures:**

JL Koenig: 

Henry Krzyzewski: 

Dominic Oaldon: 

**Next Week's Planned User Scenario:**

Complete all of the front end pages and start on feature based development.
